

# ABYAN SETYANEVA

081293369763 | abyansetyaa@gmail.com | <https://abyansetya.netlify.app/> | <https://github.com/abyansetya>

Semarang, Central Java

As a computer science student at Diponegoro University, Abyan is deeply passionate about web development, with a particular focus on the front-end. Proficient in HTML, CSS, and JavaScript, he has also learned frameworks such as React.js and Tailwind CSS. Abyan's academic journey has equipped him with a strong foundation in computer science, and his keen interest in web development has driven him to excel in creating dynamic and visually appealing user interfaces. Eager to contribute his skills and knowledge to innovative projects, Abyan aims to continue evolving in the dynamic field of front-end development.

## Education

### Bachelor of Computer

08/2022 – Present

Major in Computer Science

University of Diponegoro, Central Java

Cumulative GPA **3.71 / 4.00**

## Experiences

### Faculty of Science and Mathematics, Diponegoro University

Laboratory Teaching Assistant

08/2023 – 12/2023

#### Fundamental of Systems

- As a lab assistant for the Fundamentals of Systems course, Abyan guided 20 first-semester students, enhancing their understanding of binary numbers, flip-flops, sequential circuit and many more.
- Thoughtfully evaluated assignments for a diverse group of 20 students, offering constructive feedback to enhance their learning journey.

### Faculty of Science and Mathematics, Diponegoro University

Mentor of *Path Informatics Research* (POINTS)

09/2022 - 10/2023

- Guided and mentored new informatics students on the Student Creativity Program. Providing Explanations about what PKM (Student Creativity Program) is and how to write a good and accurate proposal in accordance with the relevant guidelines.
- Thoroughly assessing and providing valuable feedback on assignments submitted by a student group each week, guiding new students to determine suitable ideas for *POINTS* activities.

### Faculty of Science and Mathematics, Diponegoro University

Project Officer of Dekan Cup 2023

- Becoming a project officer in one of the largest sports events at the Faculty of Science and Mathematics, involving 6 different departments. Providing guidance and serving as supervision for division coordinators to ensure the event runs optimally.

## Organizational Experience

### BEM FSM, Diponegoro University

Young staff in the Art and Sports Field

04/2023 – 12/2023

- Assisting in channeling the interests and talents of FSM students by organizing a faculty-level sports competition.
- Serving as an information conduit between the university and FSM students regarding competitions in both sports and arts.
